Titan 4D

Experience Ultimate Relaxation

Flexible SL massage rail that can lay down for 180°
Innovative swinging and stretching function for foot and ankle.

01

Advanced 4D Comfort Core. Massages are preciser and deeper.

02

Flexible SL massage rail, fitting human shape precisely, can lay down for 180 degree.

03

Strong air pressure massage for leg sides

04

Big and strong air pressure massages parts for full body

05

Innovative swinging and stretching function for foot and ankle

06

Professional auto massage programs

07

Japanese&Thai deep full-body stretch relaxation

08

High-quality bluetooth speaker to play music

09

Wireless charging function for phone

Smart body Detection

Smart sensor chip helps to find the right neck position and leg length of different users to get preciser and more comfortable massages.

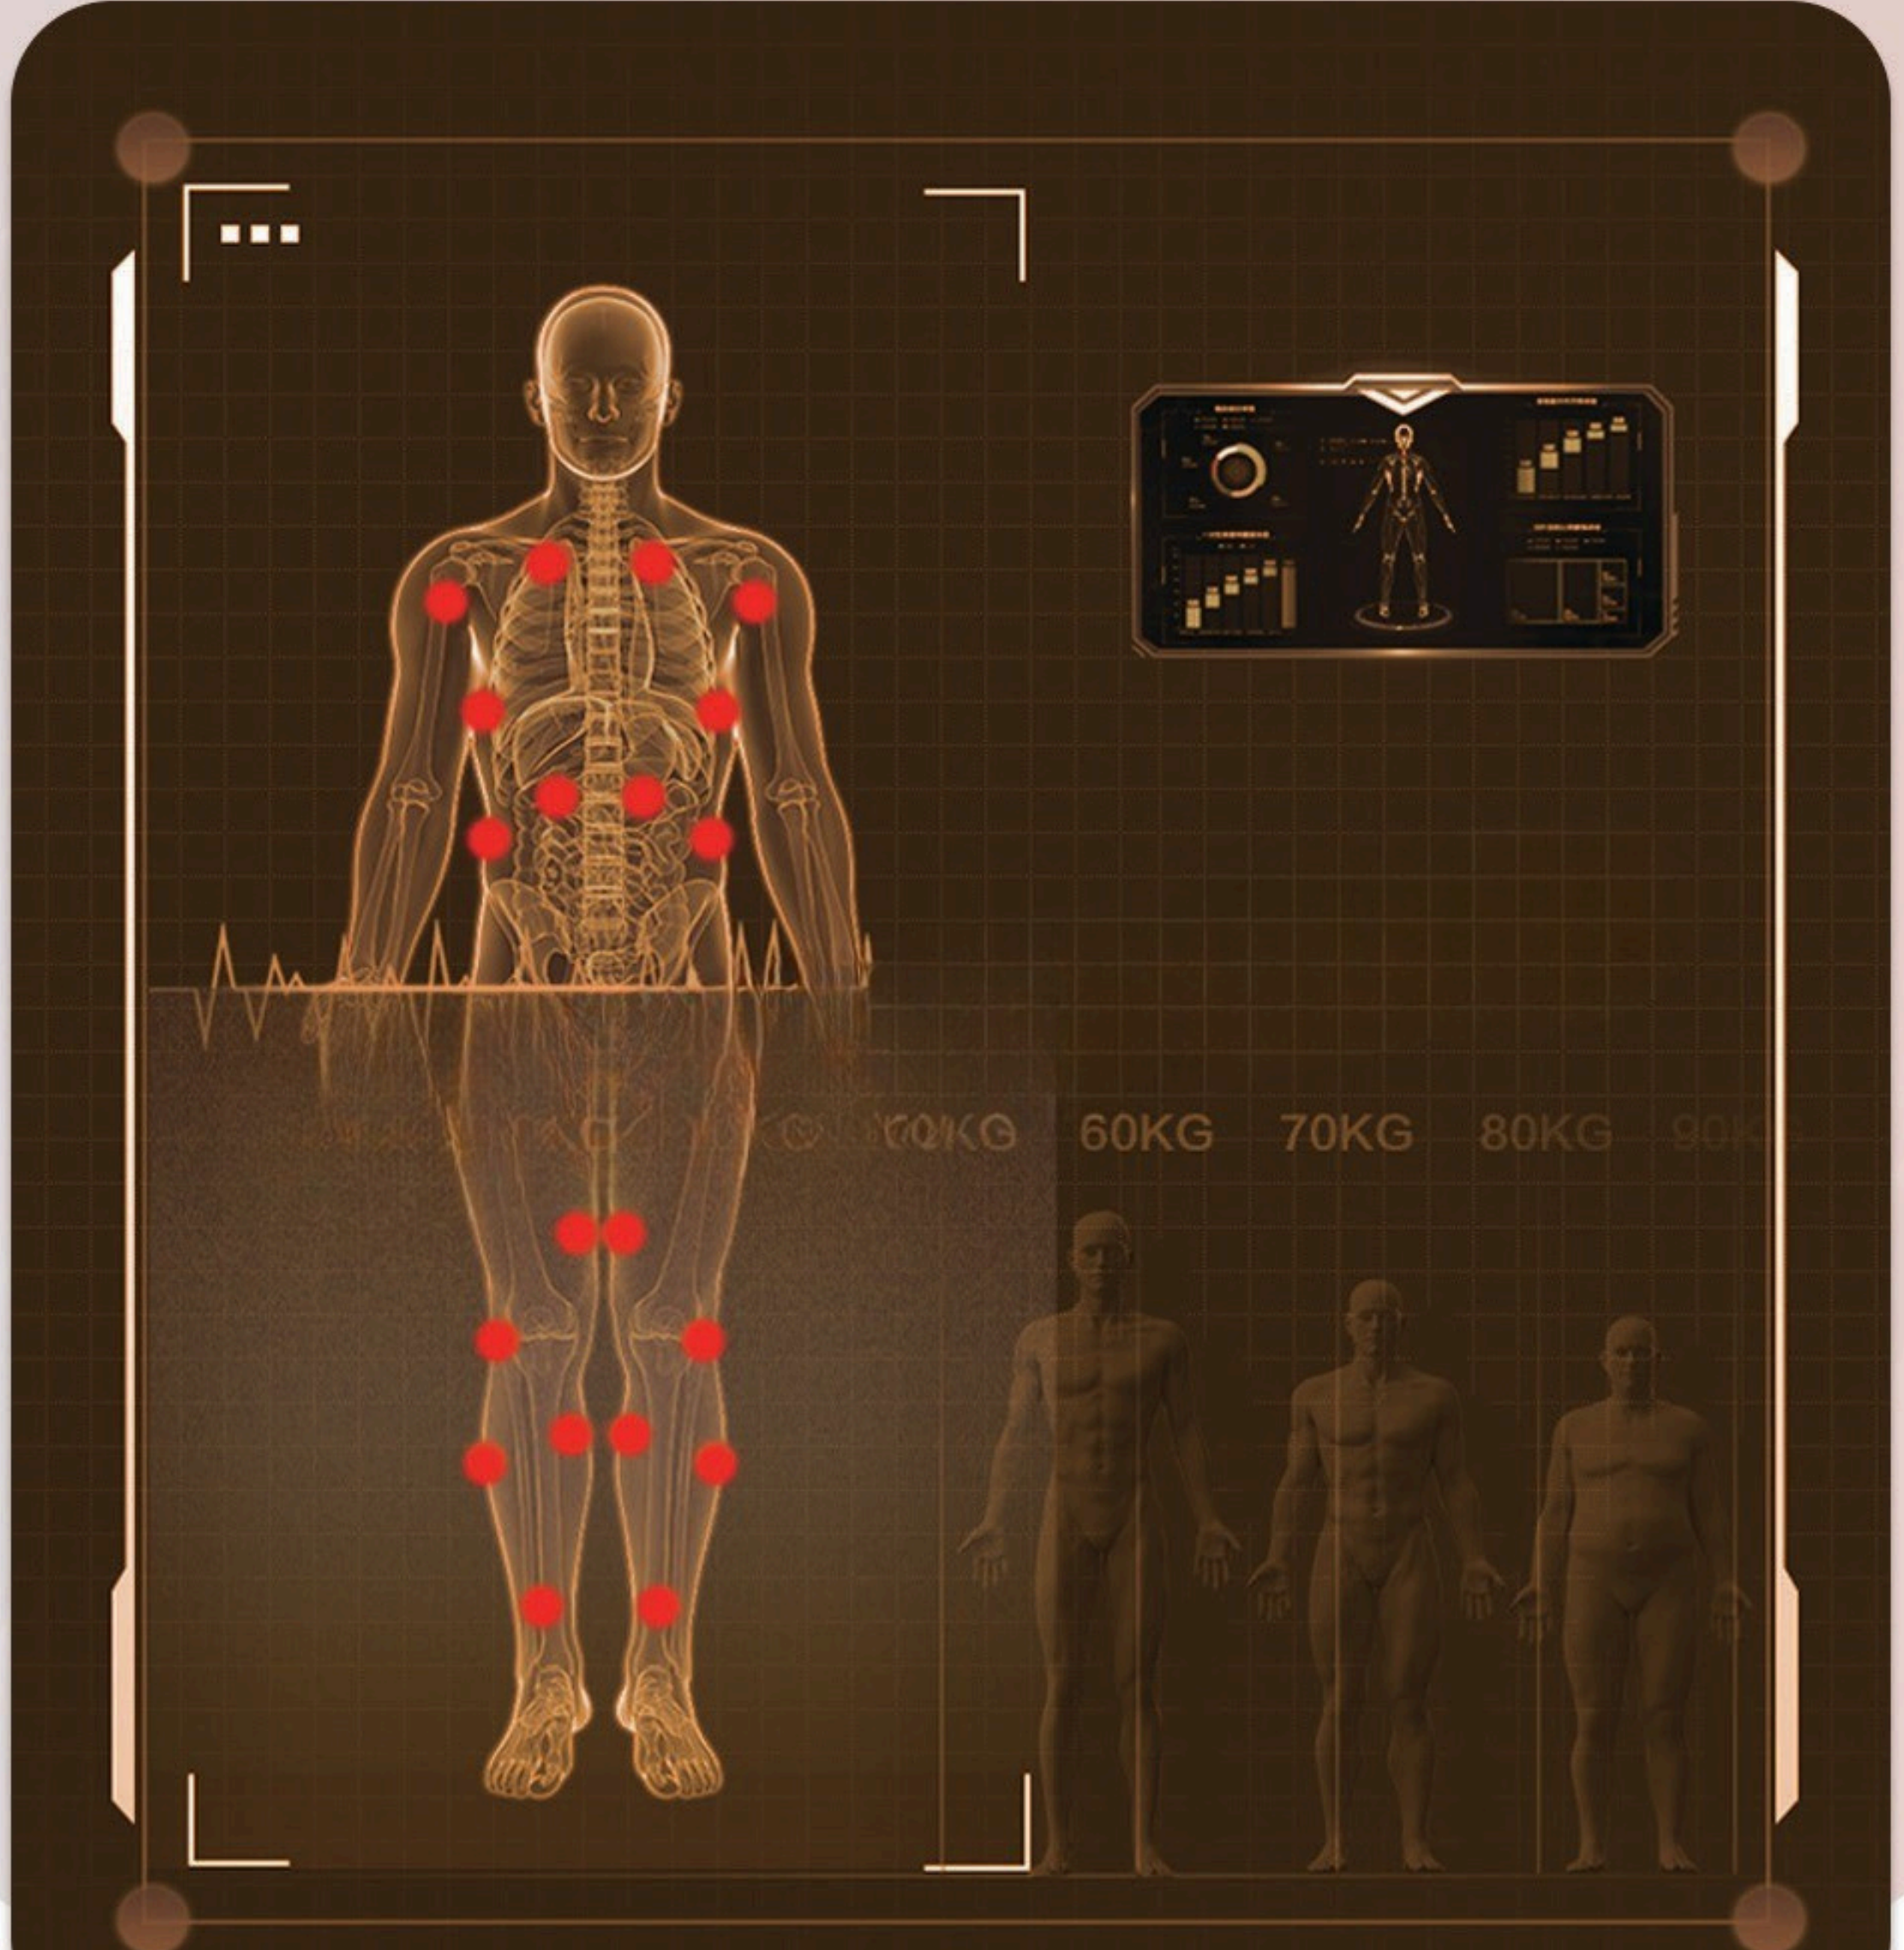

Intelligent Sensing Spinal Curve Intelligent adaptation

AI Intelligent CNC Detection

Height / Body Shape / Shoulder Position **Multi-Dimensional Sensing**

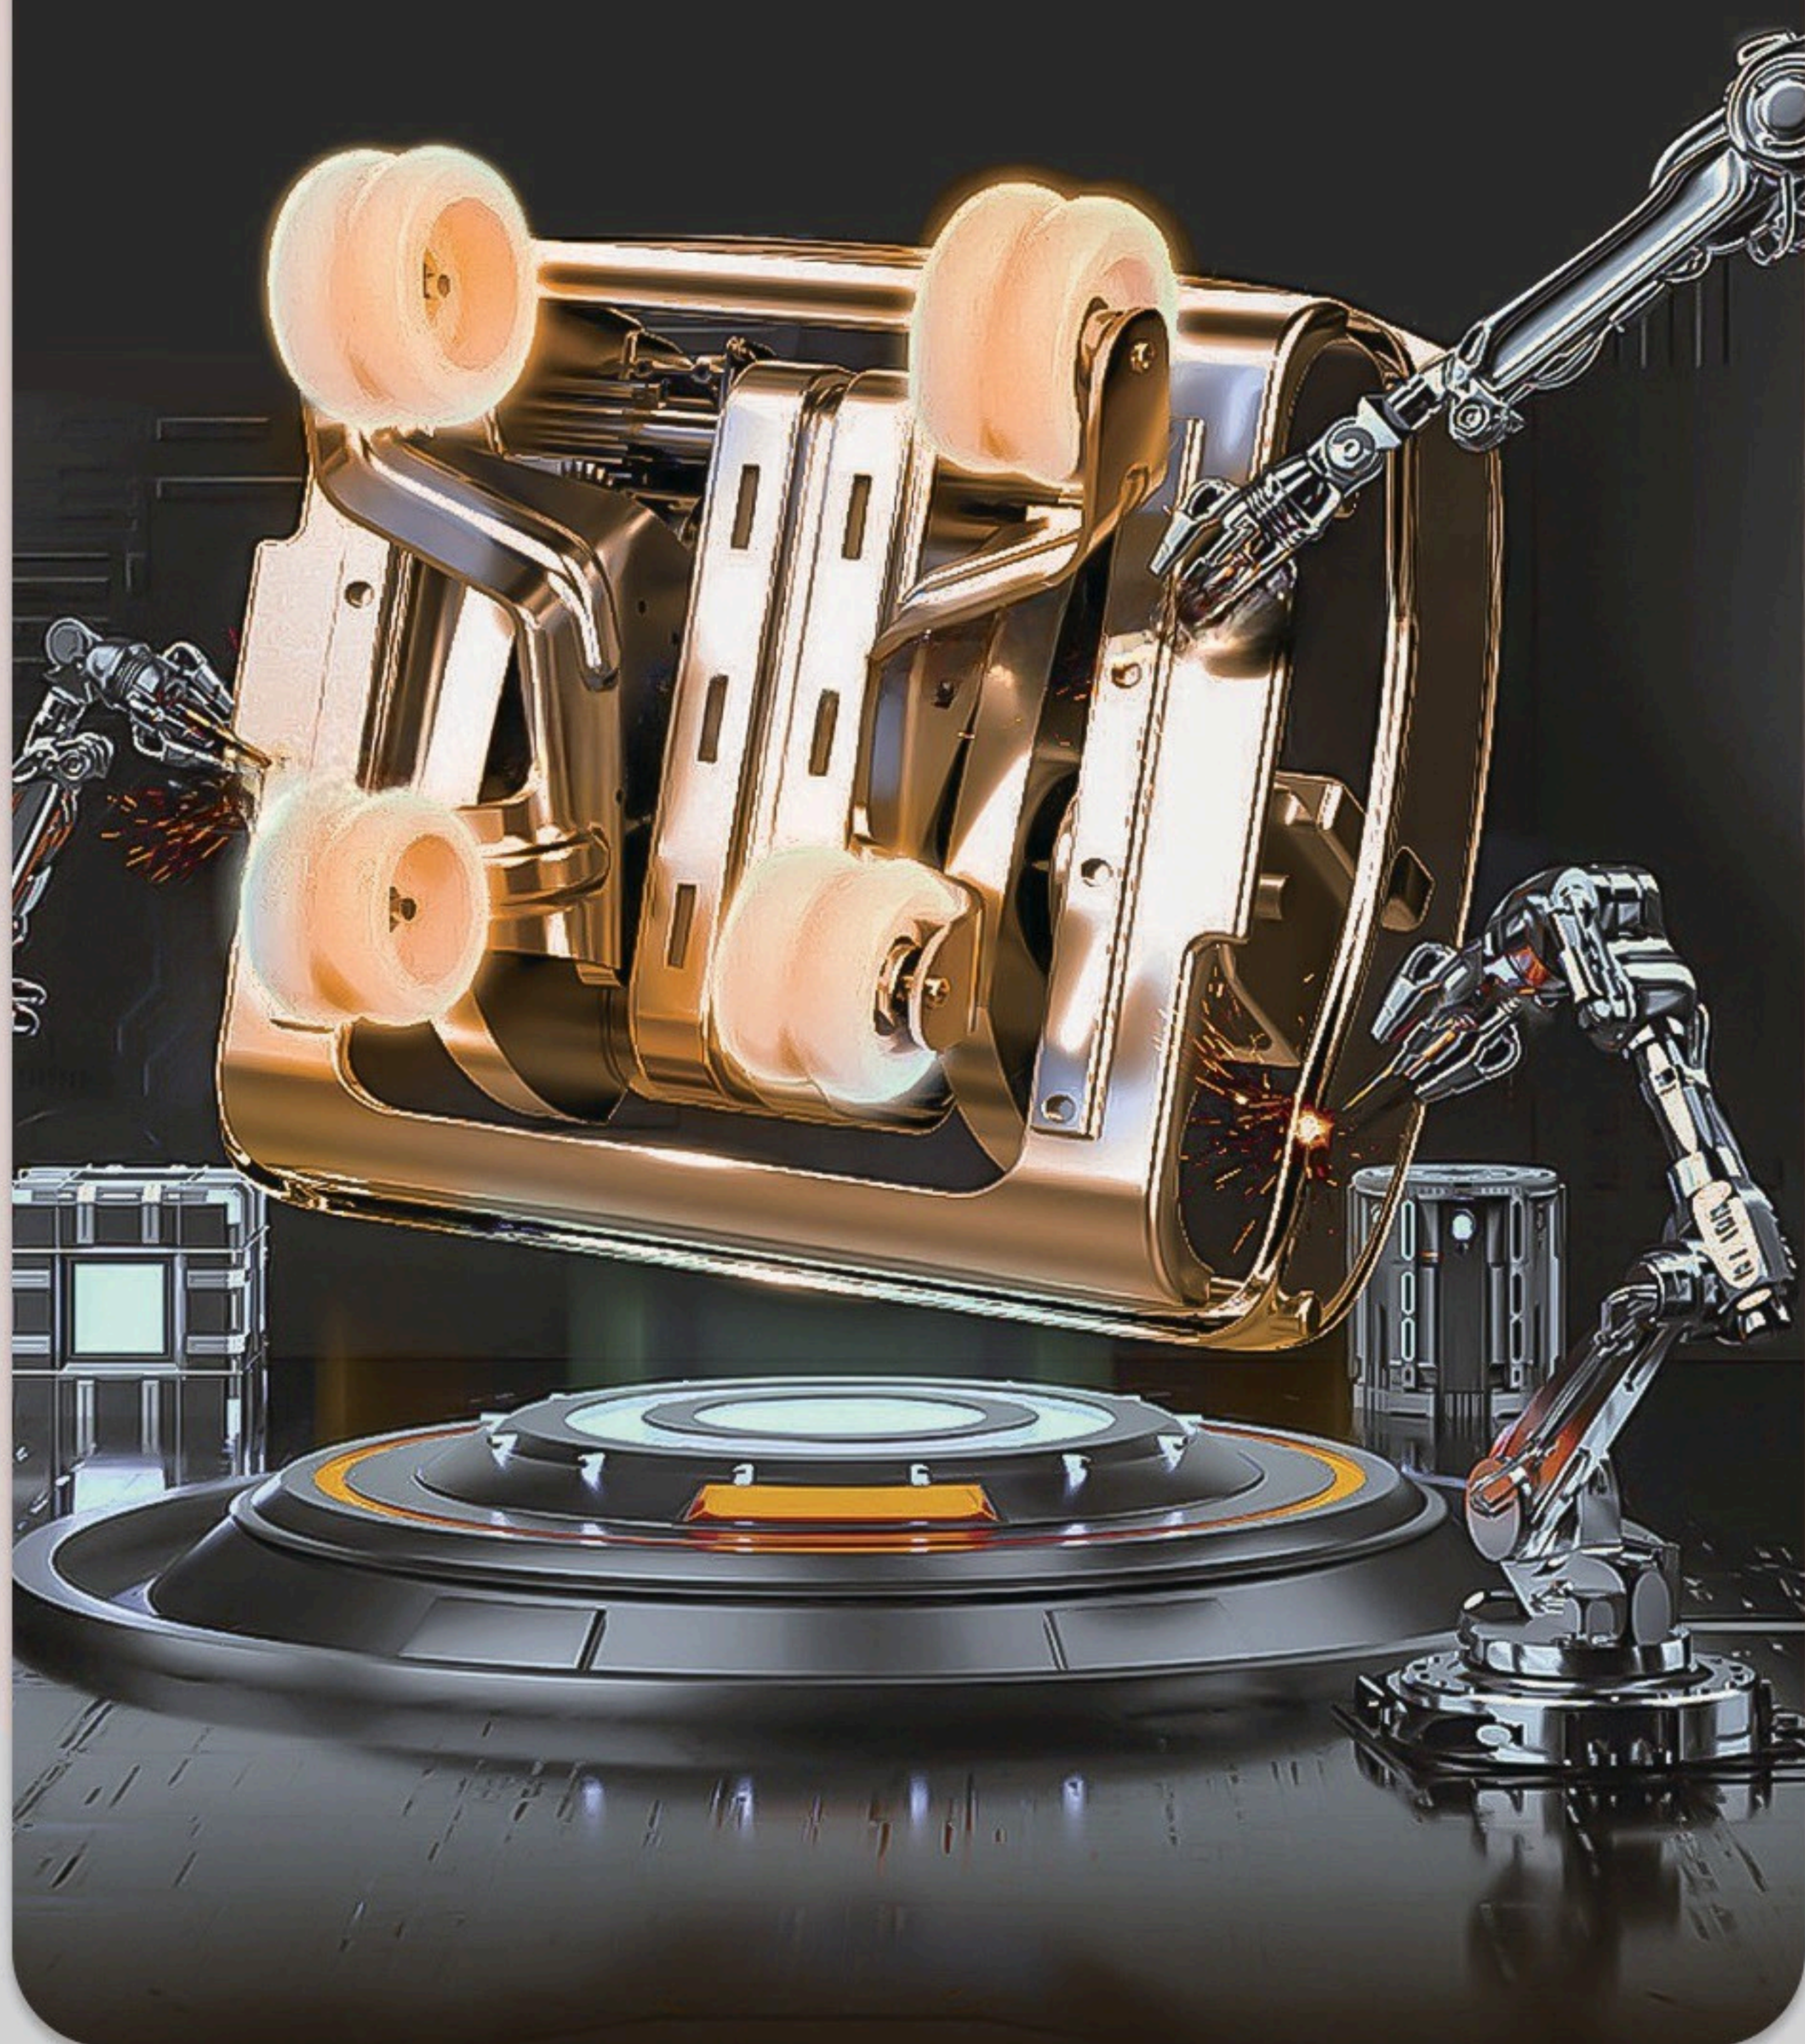

AI intelligent touch pressure sensing + infrared light dual detection of the user's body shape, first collect the height and body shape data from the whole, and then further accurate positioning through shoulder position detection, so that the massage accuracy can be accurate to the millimeter level.

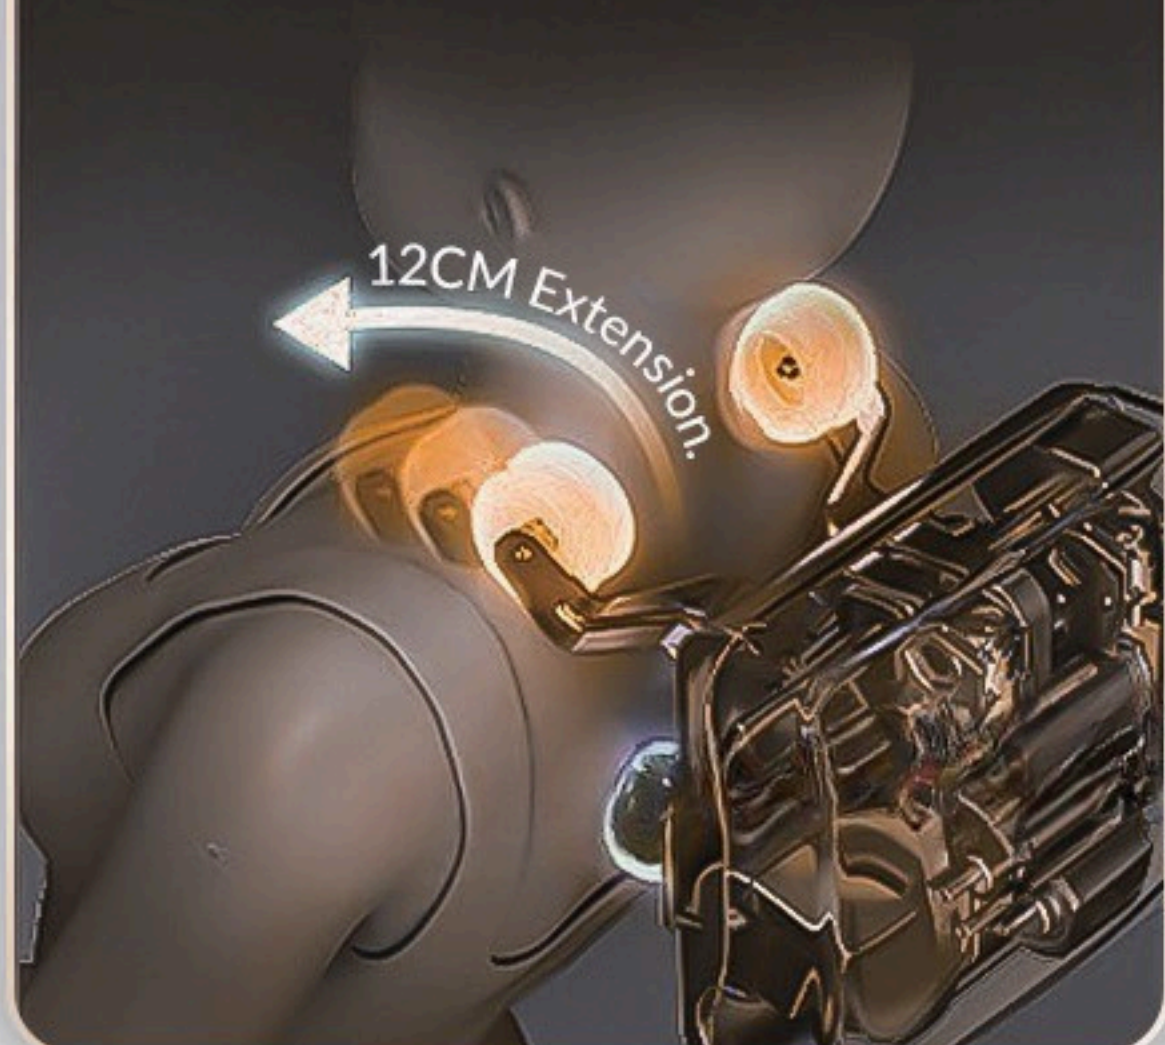

Advanced Soothing 4D Mechanism

Achieving precise and comfortable massages,
getting impressively deep relaxation.

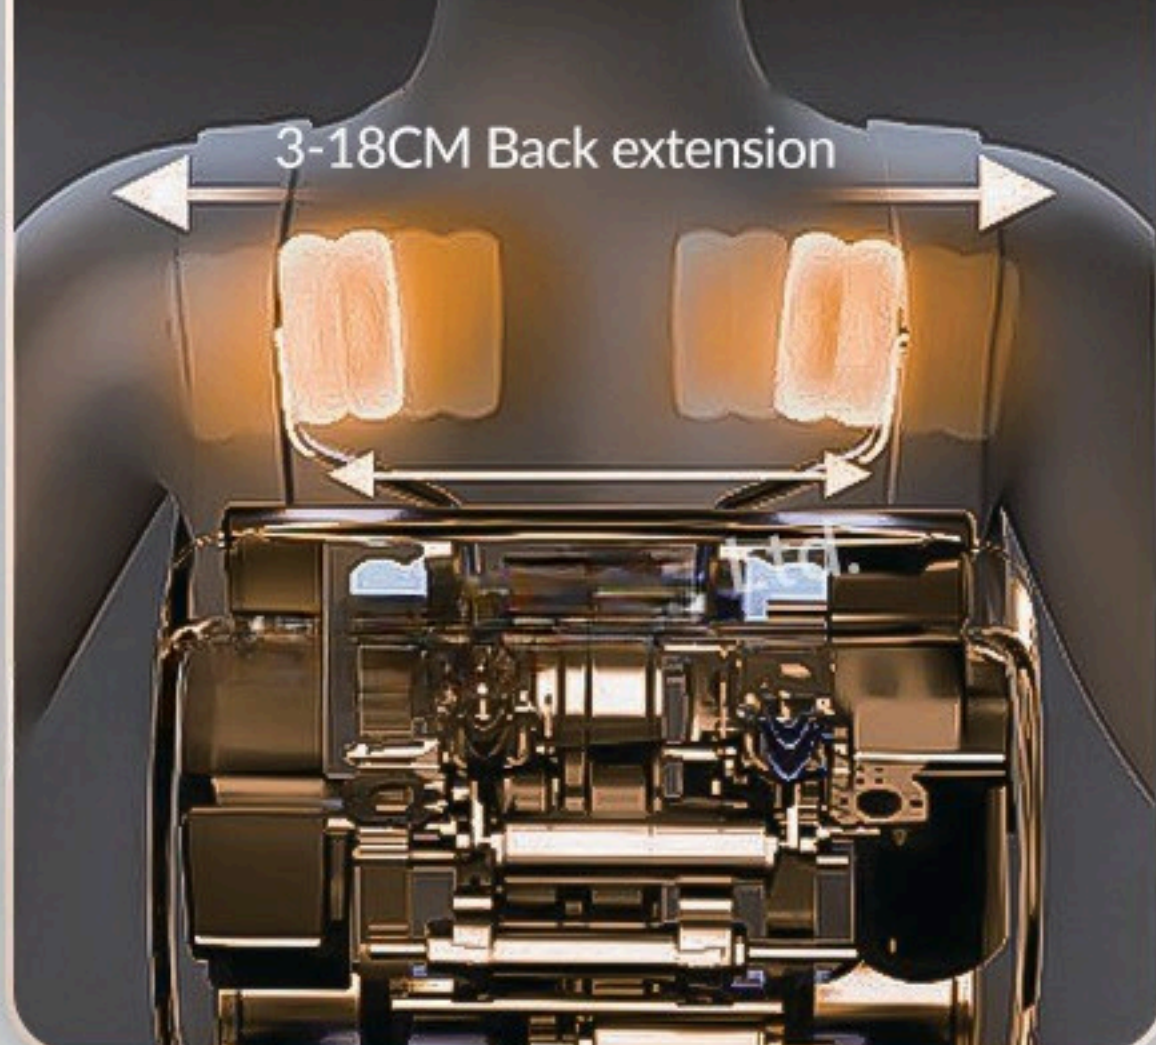

The massages are deep, more powerful and with a great combination of
hardness and softness, achieving the wonderful massage experience.

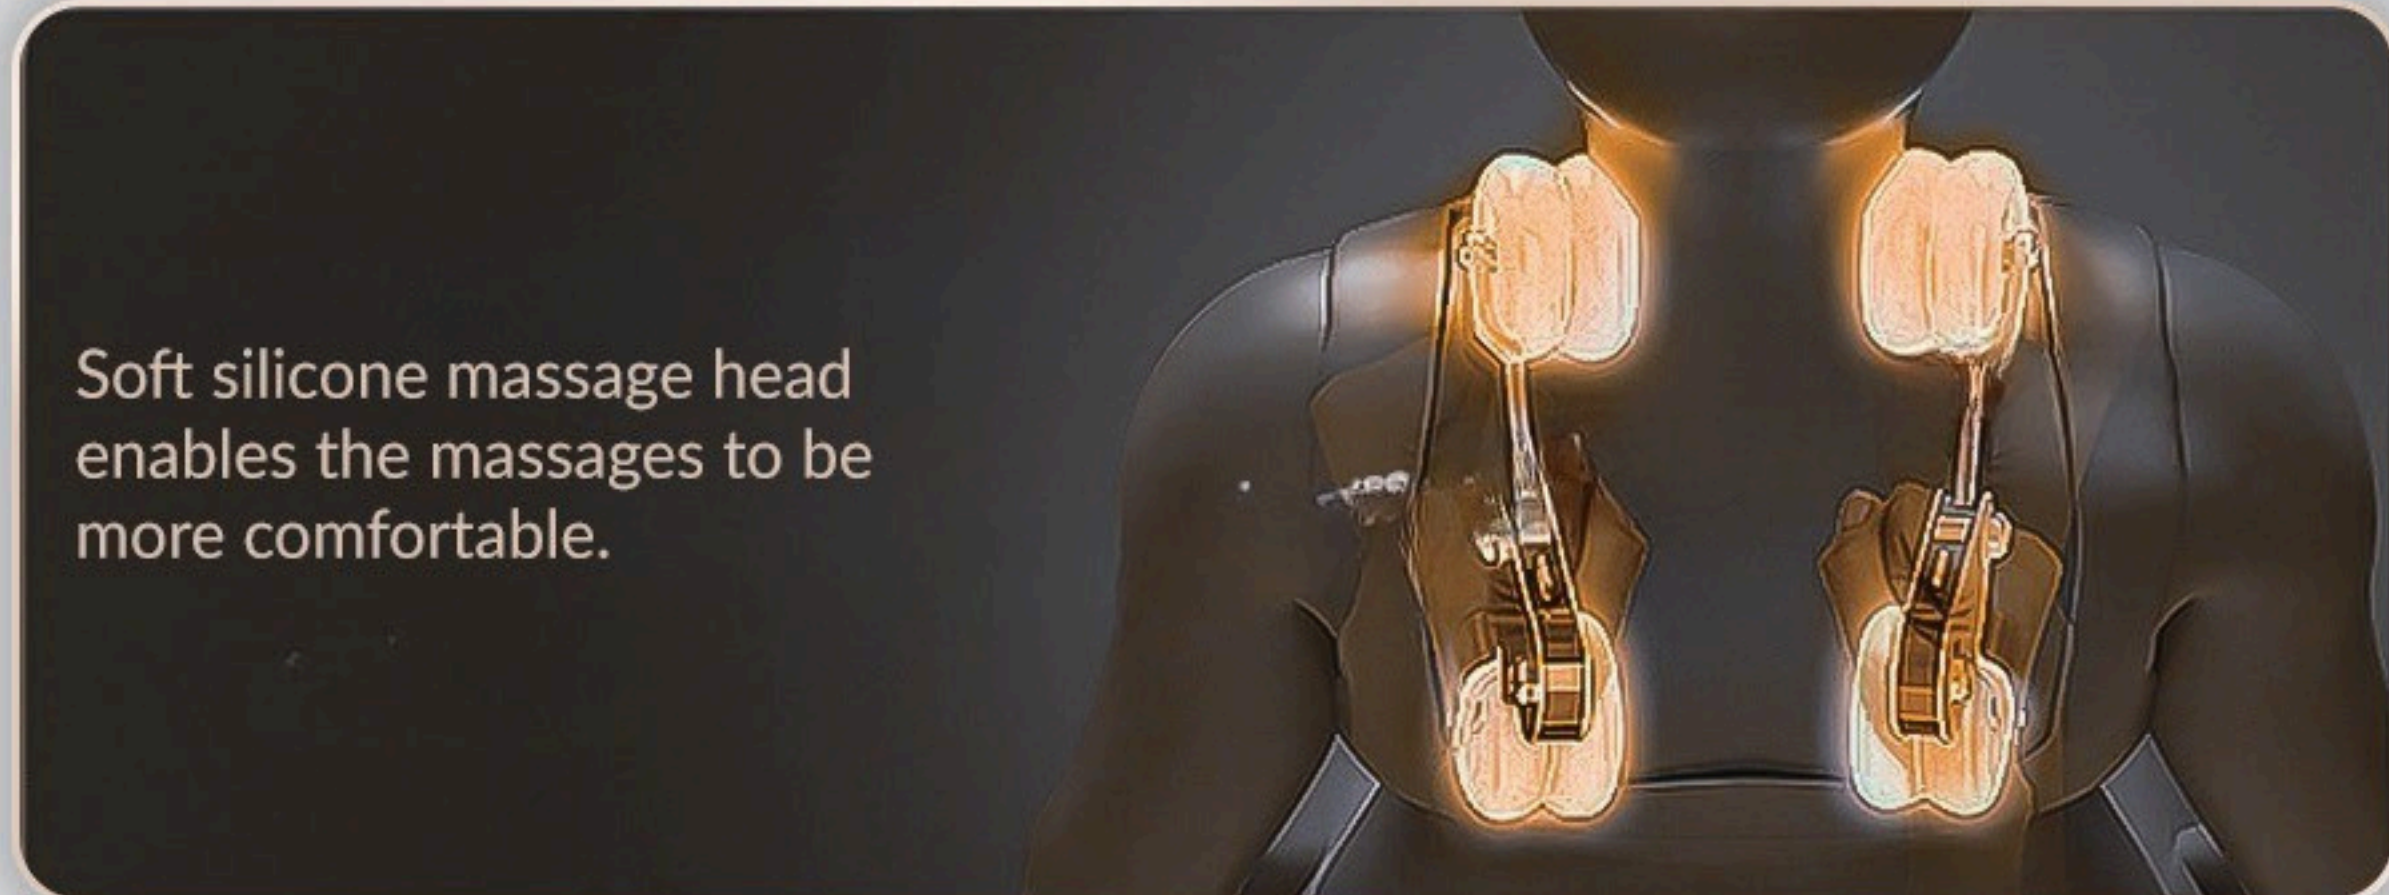

Extending forward to achieve
deeper massages.

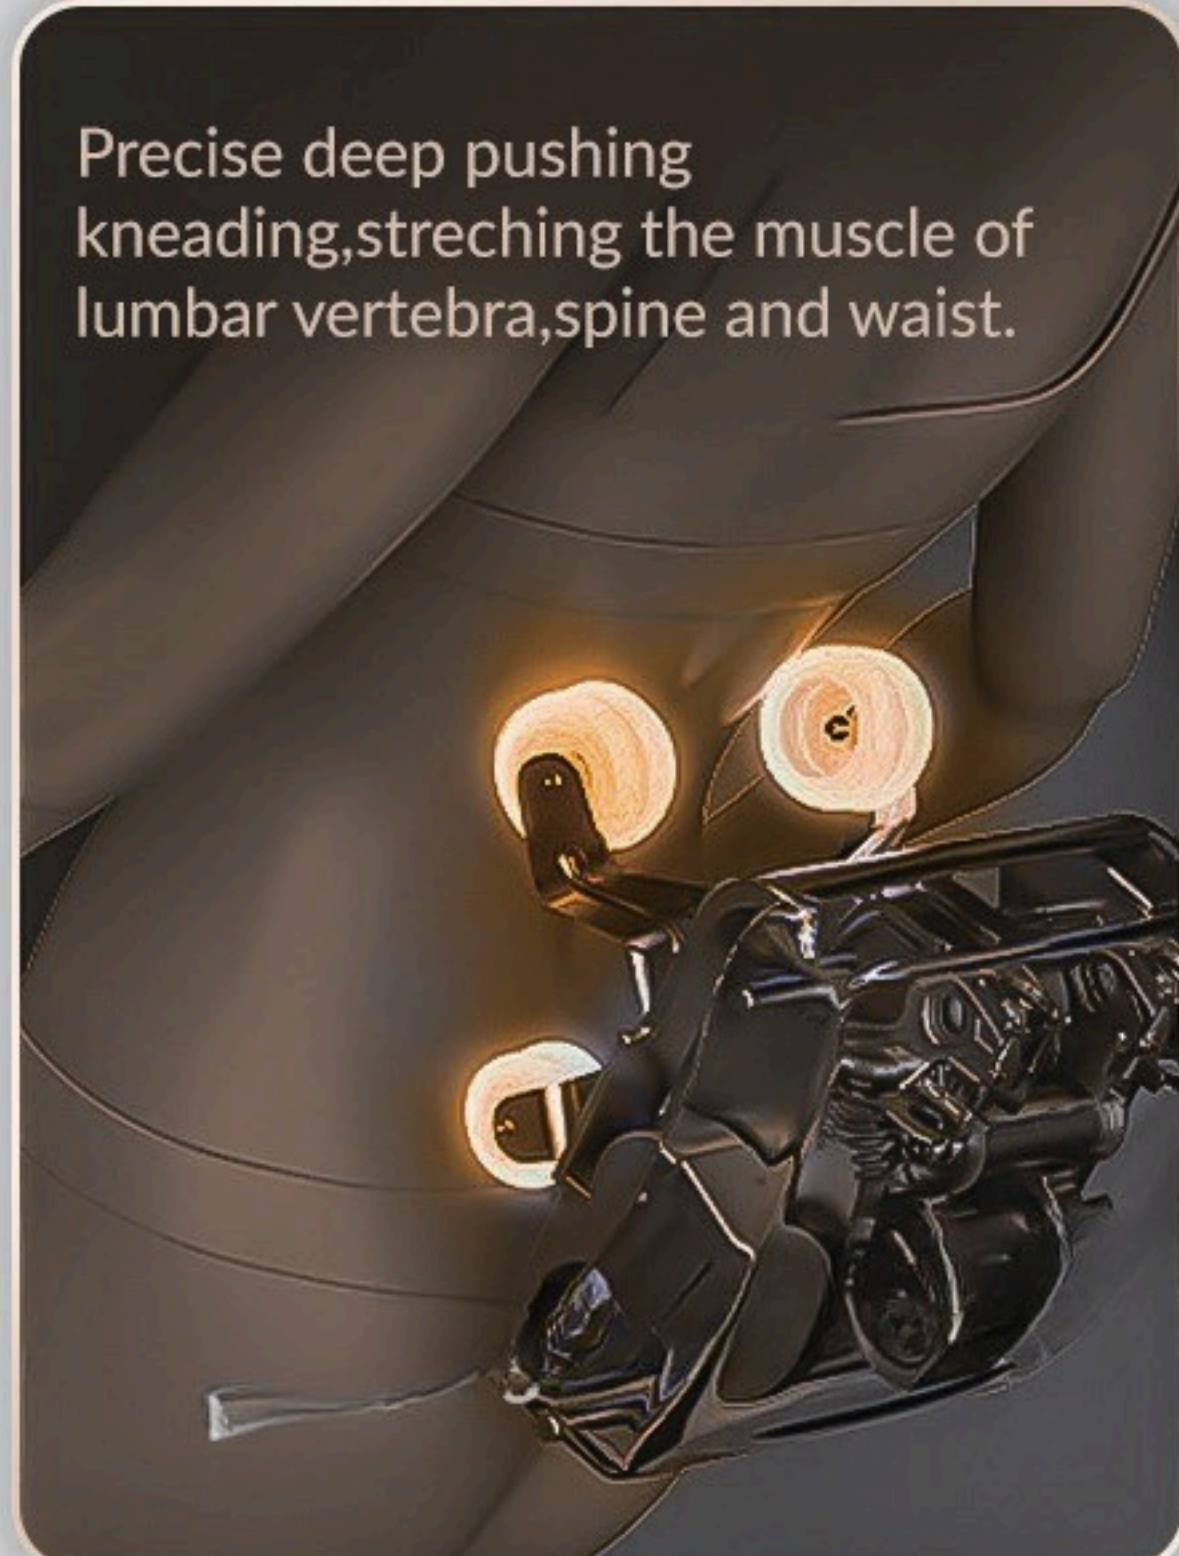

Back extension massage
achieves wider massager area.

Soft silicone massage head
enables the massages to be
more comfortable.

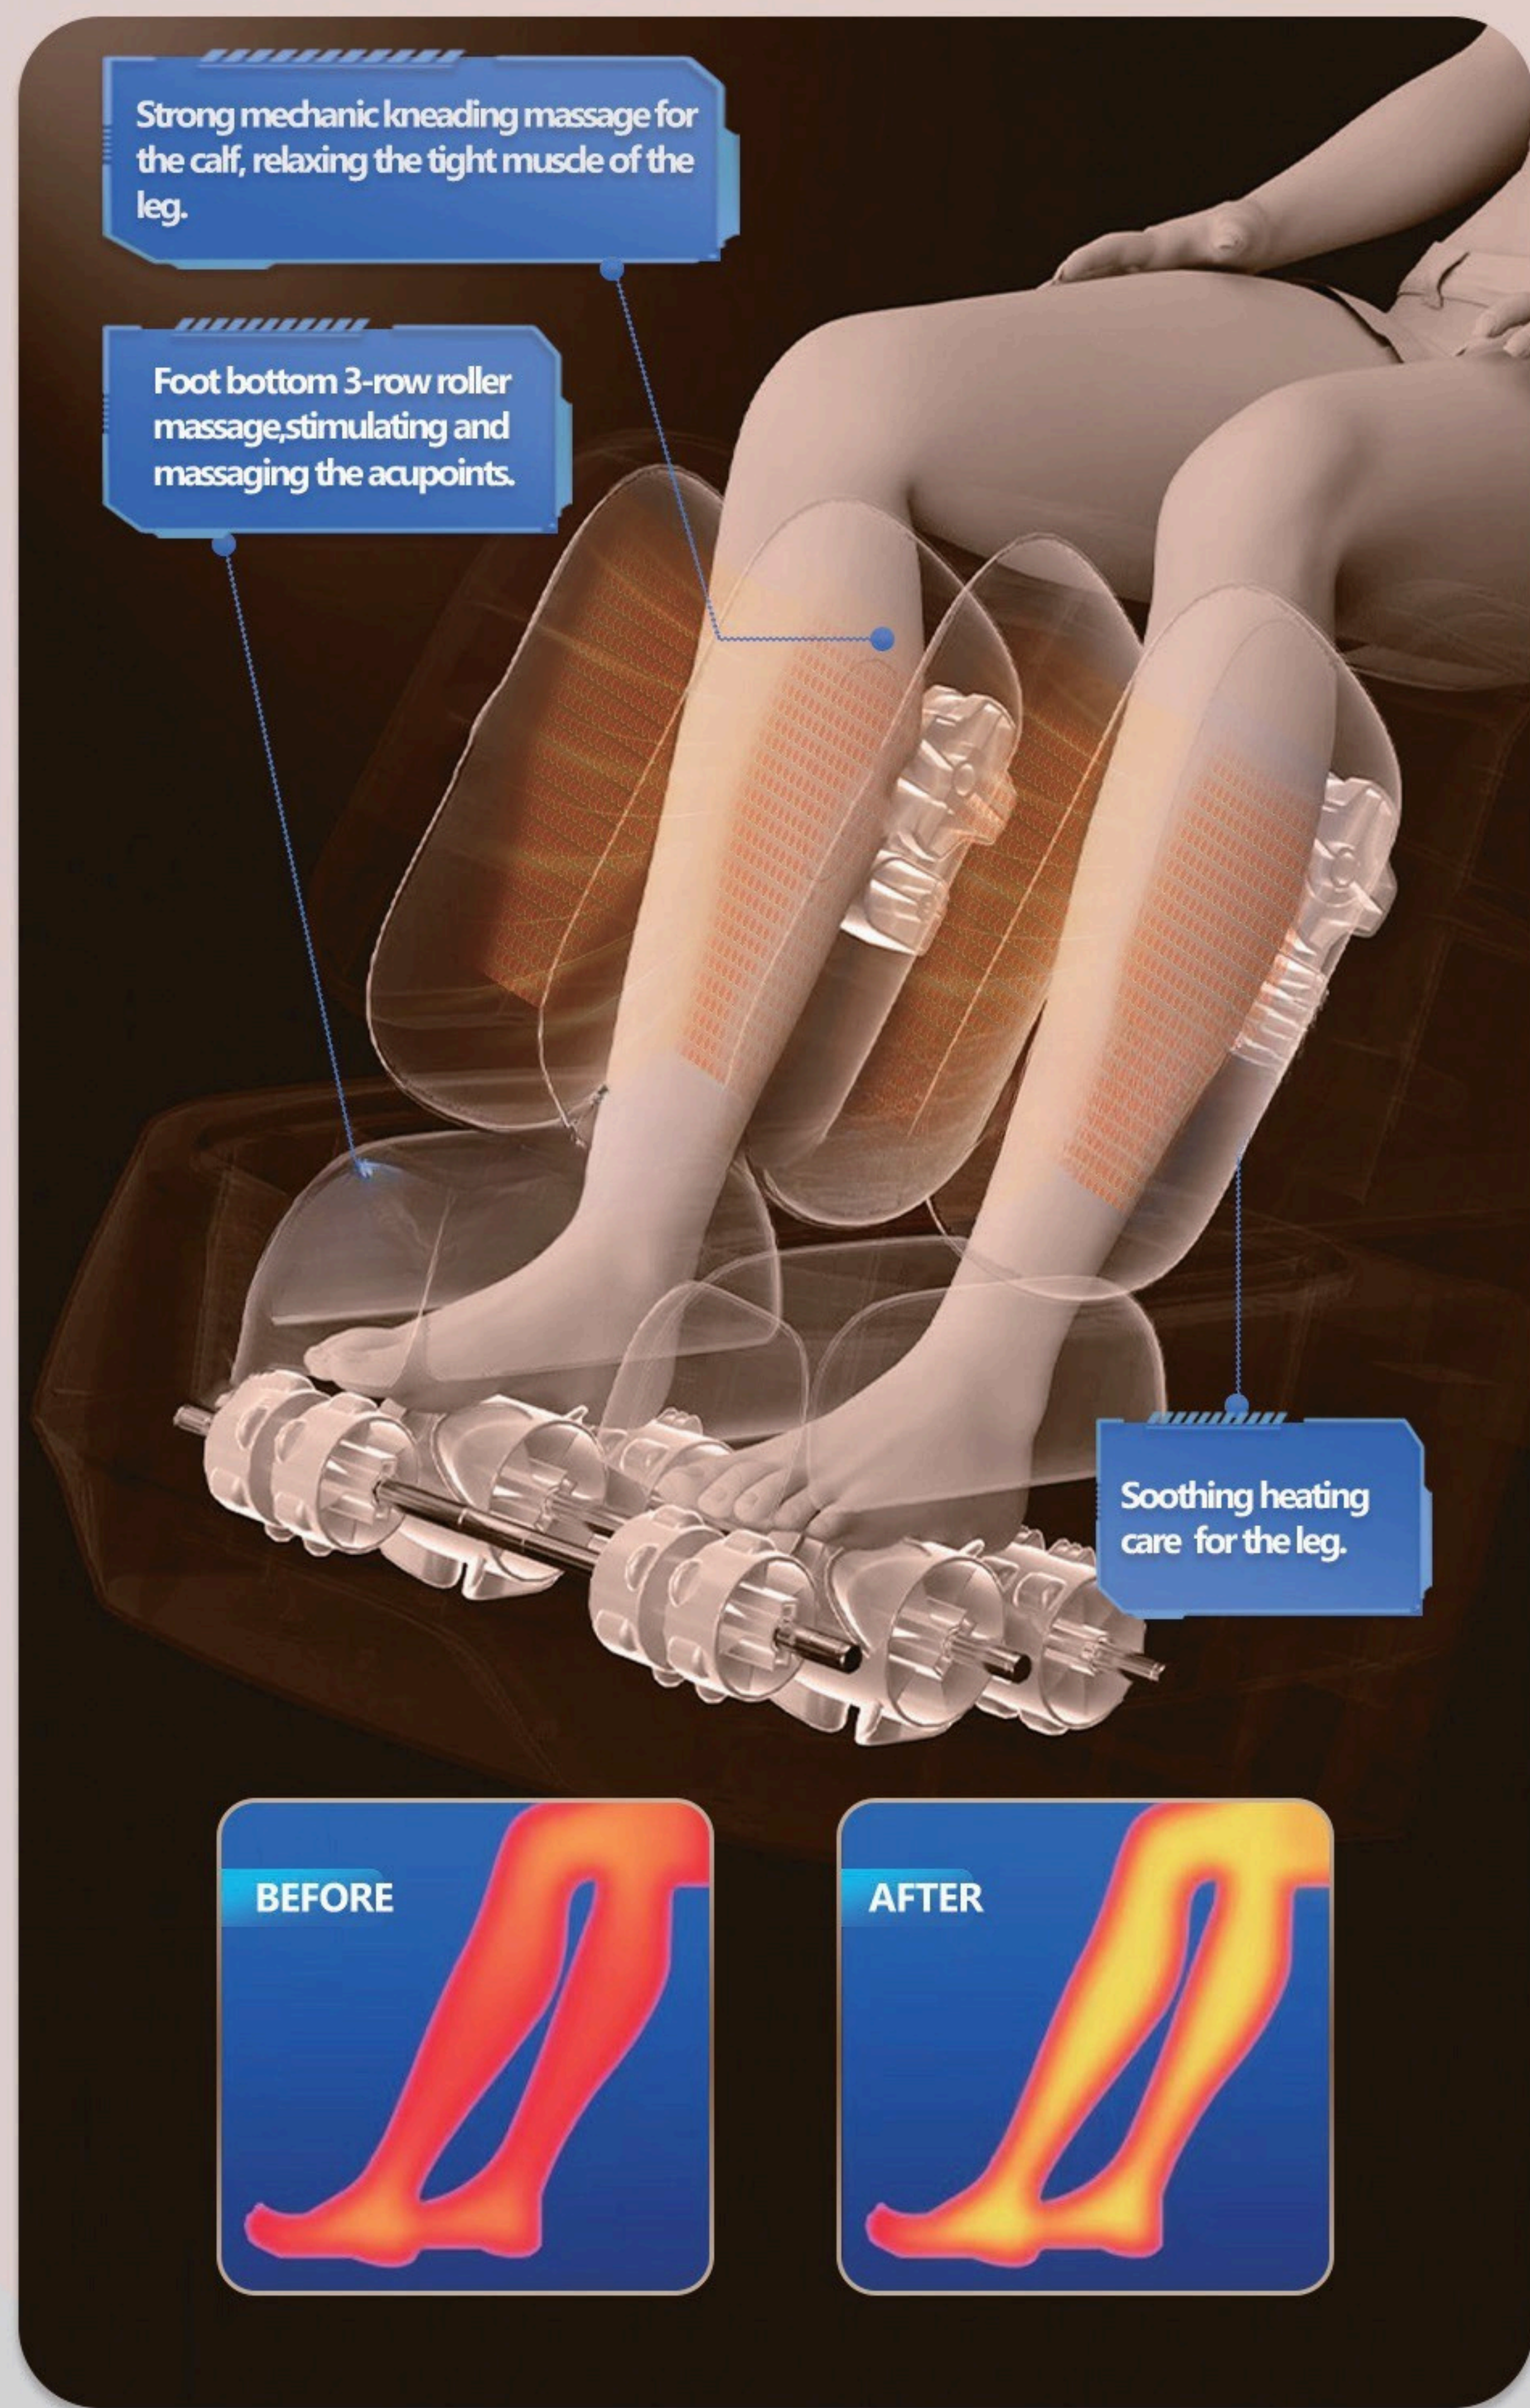

Precise deep pushing
kneading, stretching the muscle of
lumbar vertebra, spine and waist.

Combination of finger
pressure, kneading, tapping,
Tuina, claping, kneading&tapping,
relaxes tight muscle.

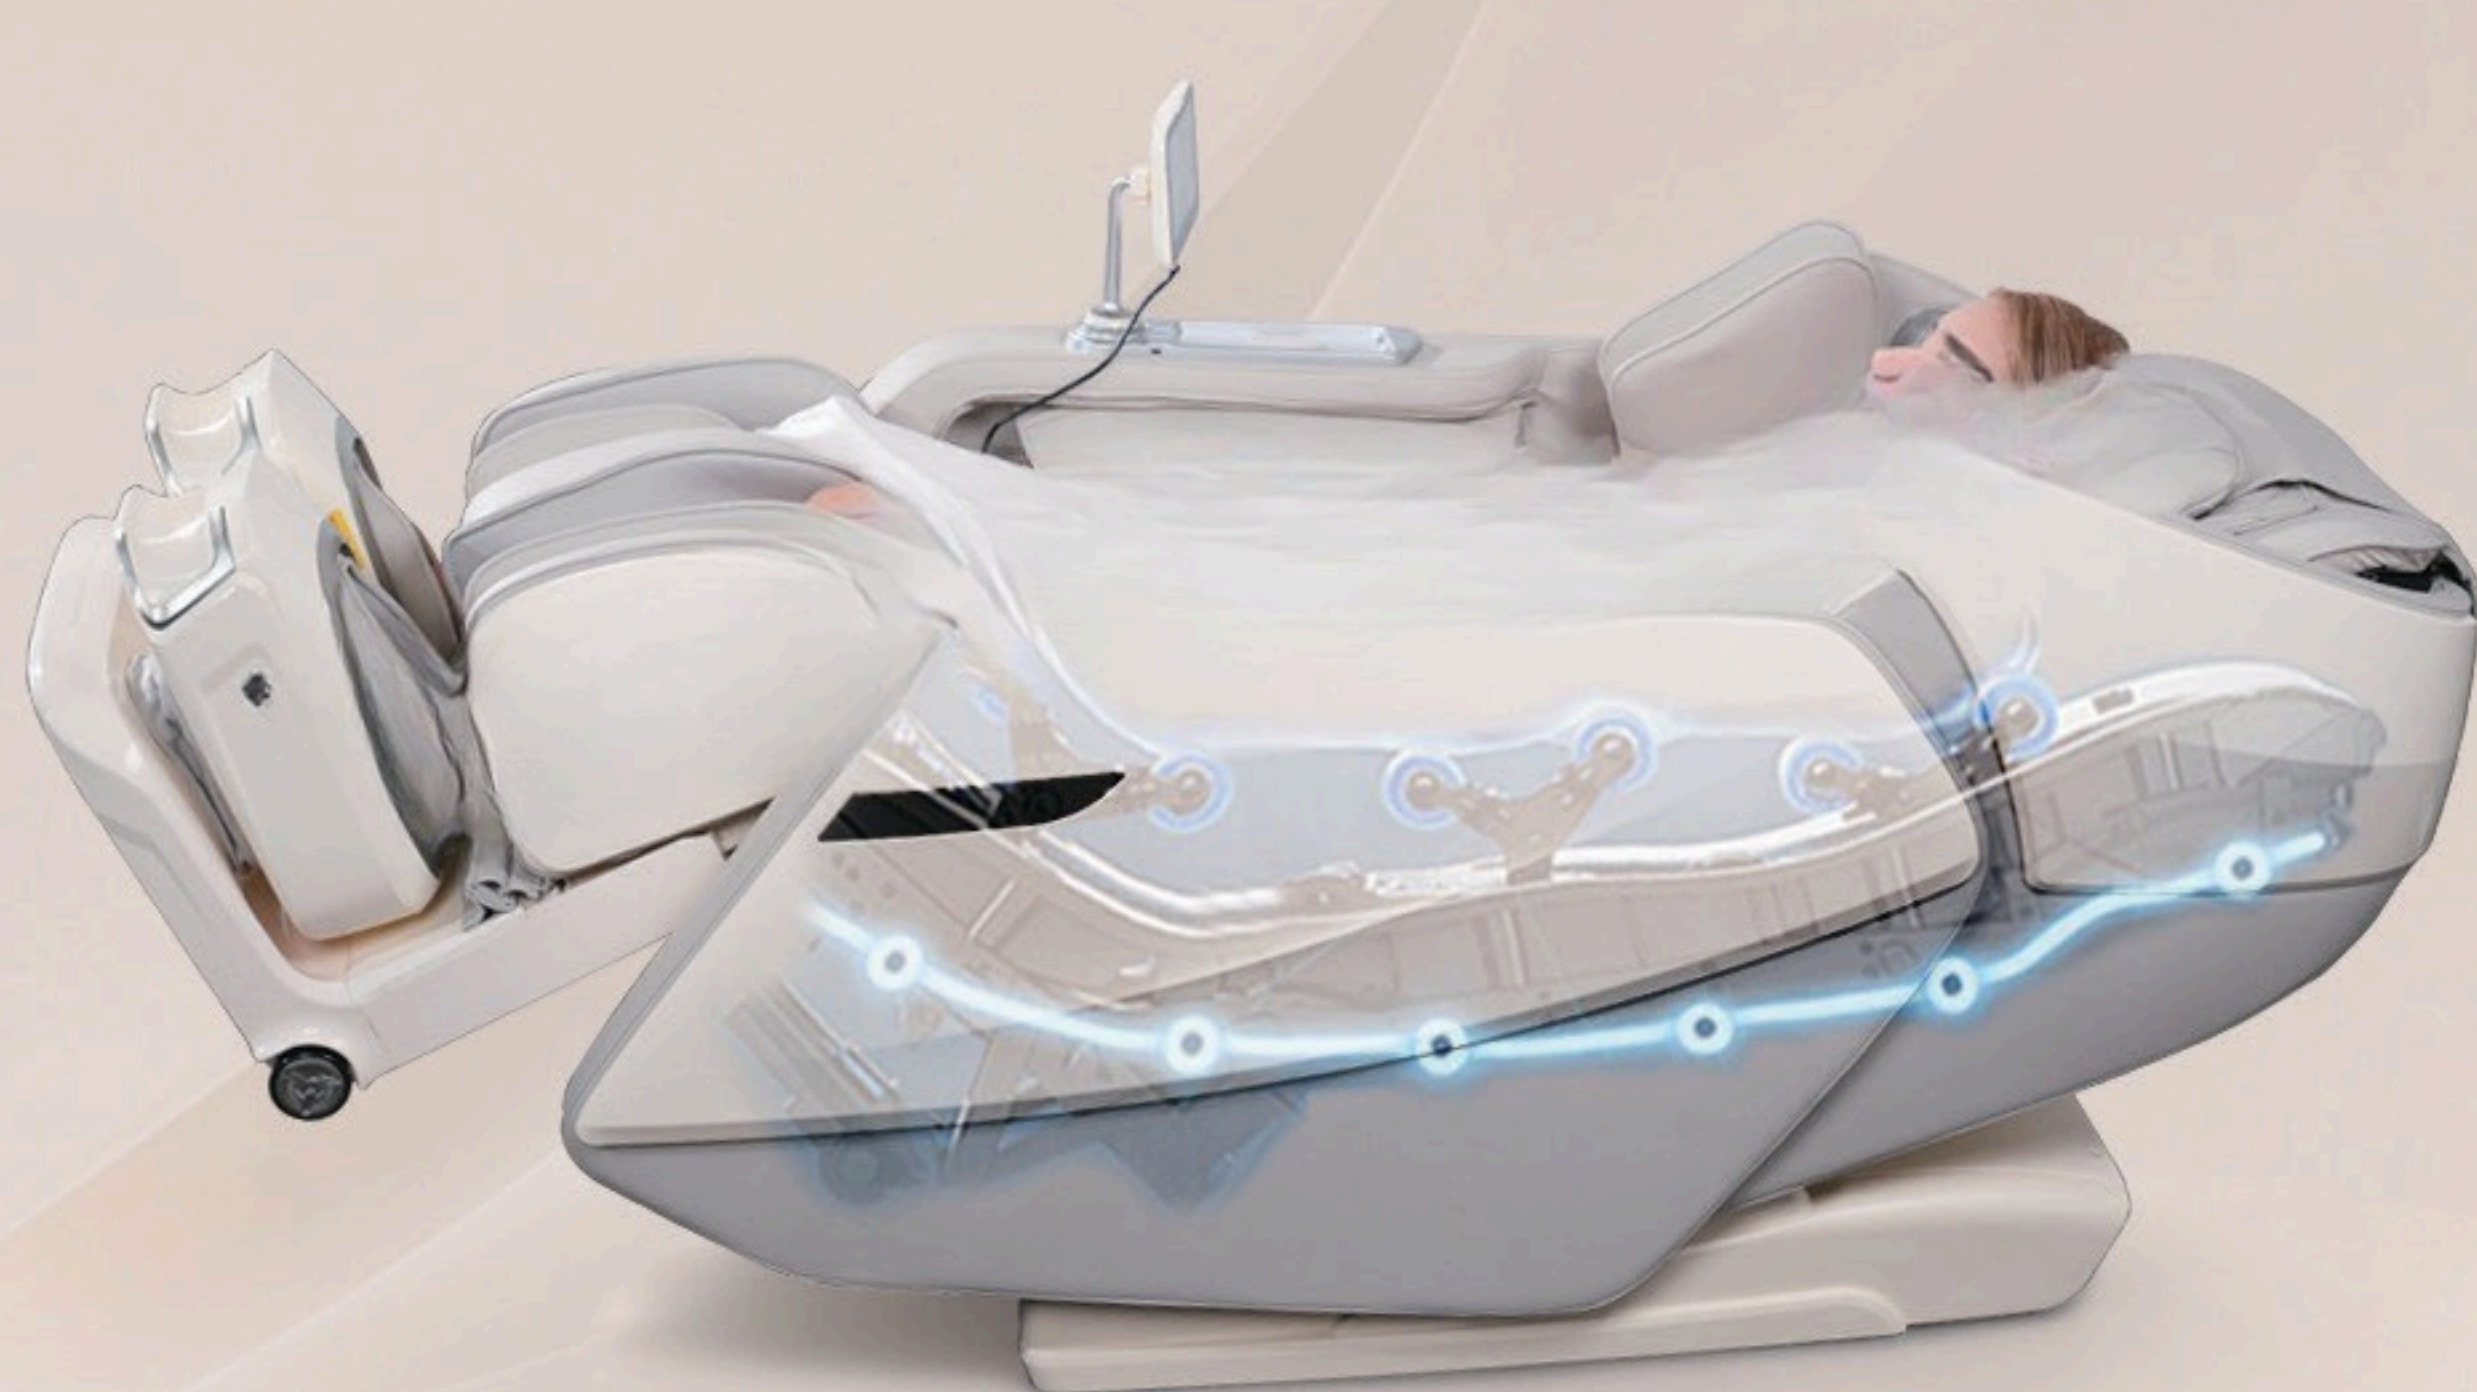

Considerate Foot&Calf Massages

INNOVATIVE Flexible SL Track Ergonomic Design

Our innovative flexible SL massage track achieves a **full 180° recline**, a smoother, flatter, and more comfortable posture for a **truly zero-gravity relaxation**.

Innovative flexible SL massage rail achieves **longer and more scientific massage coverage** to massage your **neck, back, waist and buttock** more comfortably and deeply.

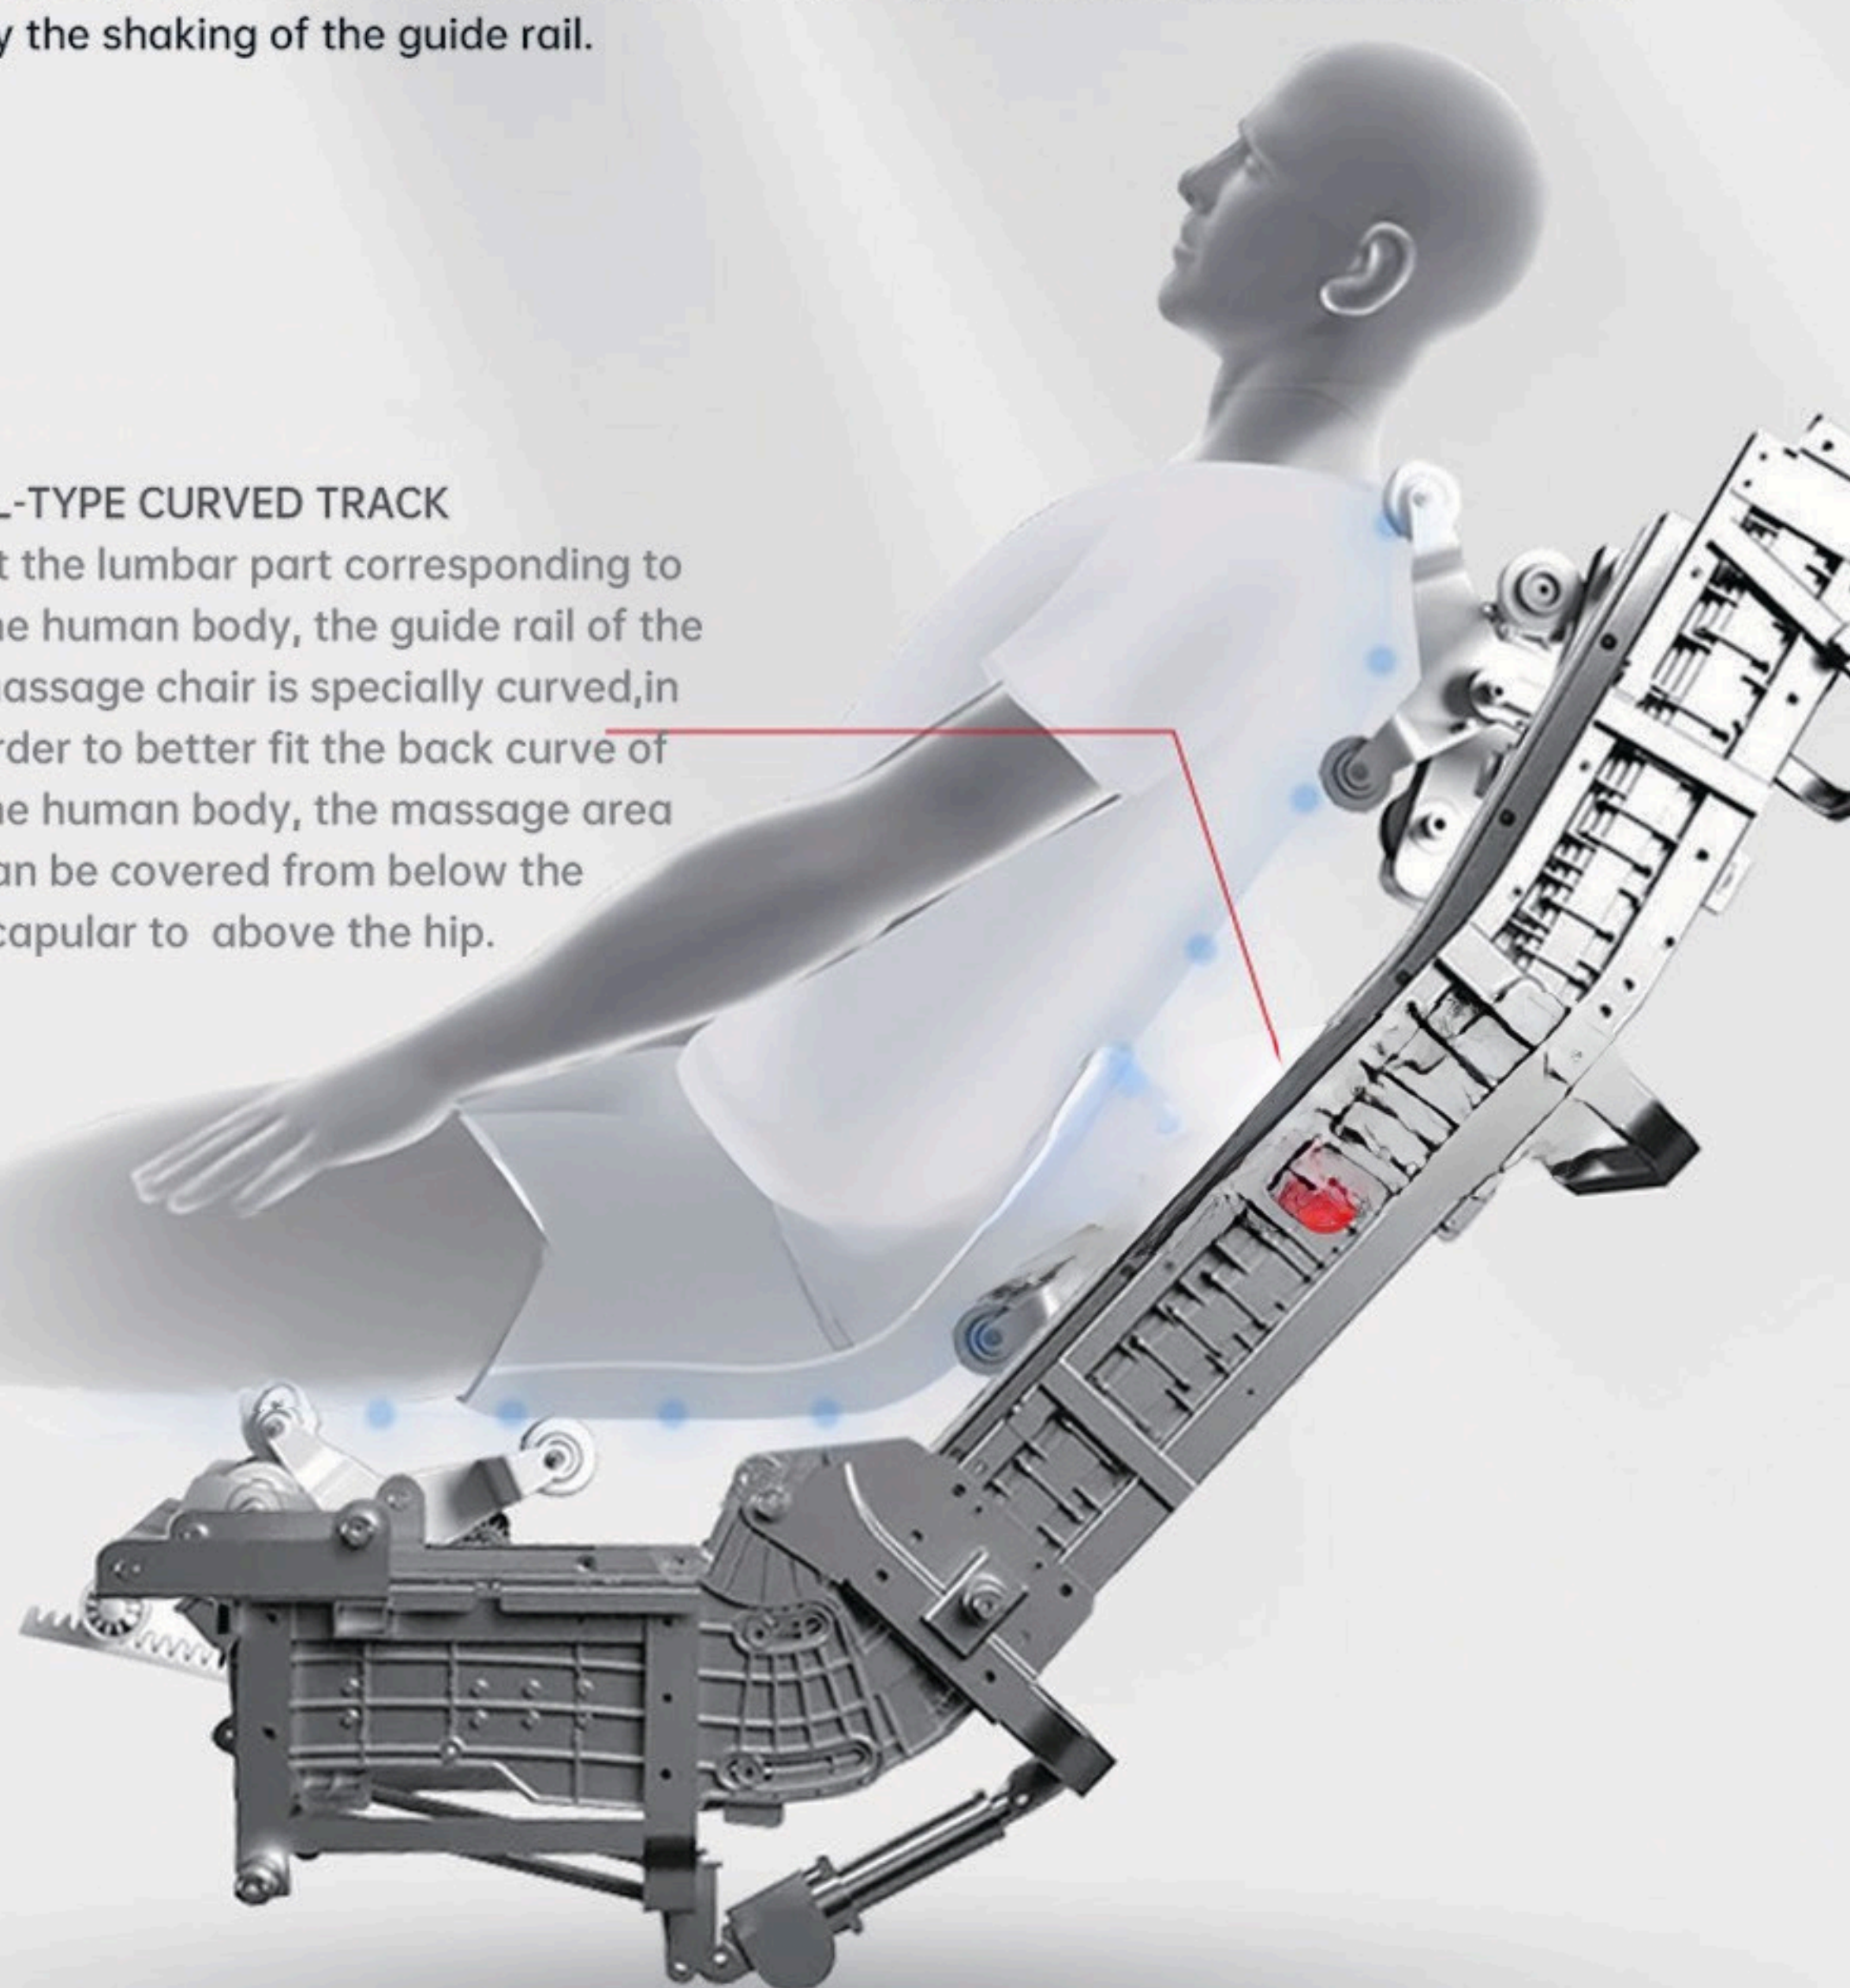

SUPER LONG/ STRONG ALLOY SL GUIDE RAIL

**People With Different Sizes Can
Sit And Lie Comfortably**

The length of the guide rail determines the massage stroke. The 145cm long guide rail can massage from the neck to the thigh. The weight of the guide rail determines the stability of the massage. The alloy guide rail is stronger and heavier, and the massage process is as stable as Mount Tai to avoid the deviation massage caused by the shaking of the guide rail.

SL-TYPE CURVED TRACK

At the lumbar part corresponding to the human body, the guide rail of the massage chair is specially curved, in order to better fit the back curve of the human body, the massage area can be covered from below the scapular to above the hip.

Innovative Ankle-Twisting For Relaxation And Flexibility

Innovative dynamic twisting to relax *ankle joints* and relieve *foot muscle* stiffness.

This is our latest design and function theory to enhance the massage comfort for our end users.

Full-leg 3D kneading Comfort Massage

Comprehensive 3D kneading function to promote leg circulation and relieve leg discomfort.

6-INCH Automatic Intelligent Scaling

150-200cm height users can *sit and lie comfortably*.

Lying flat 180° Beyond Zero Gravity

Lay-Flat reclining stretch to release tension, eliminate fatigue, and energize your ligaments.

Ultra-Big Full Body Air Bags Wrapping Massages With Heating Care On The Back & Waist

Free your whole body muscles and enhance blood circulation by deeper and preciser massages.

24+ Auto Professional Massage Program

Over 24 massage programs combine multiple techniques to deliver a personalized experience tailored to your body's needs.

Full Relaxation of Body and Mind

High-quality bluetooth speaker. Playing your favorite music while being massaged, so that you can get full relaxation mentally and physically.

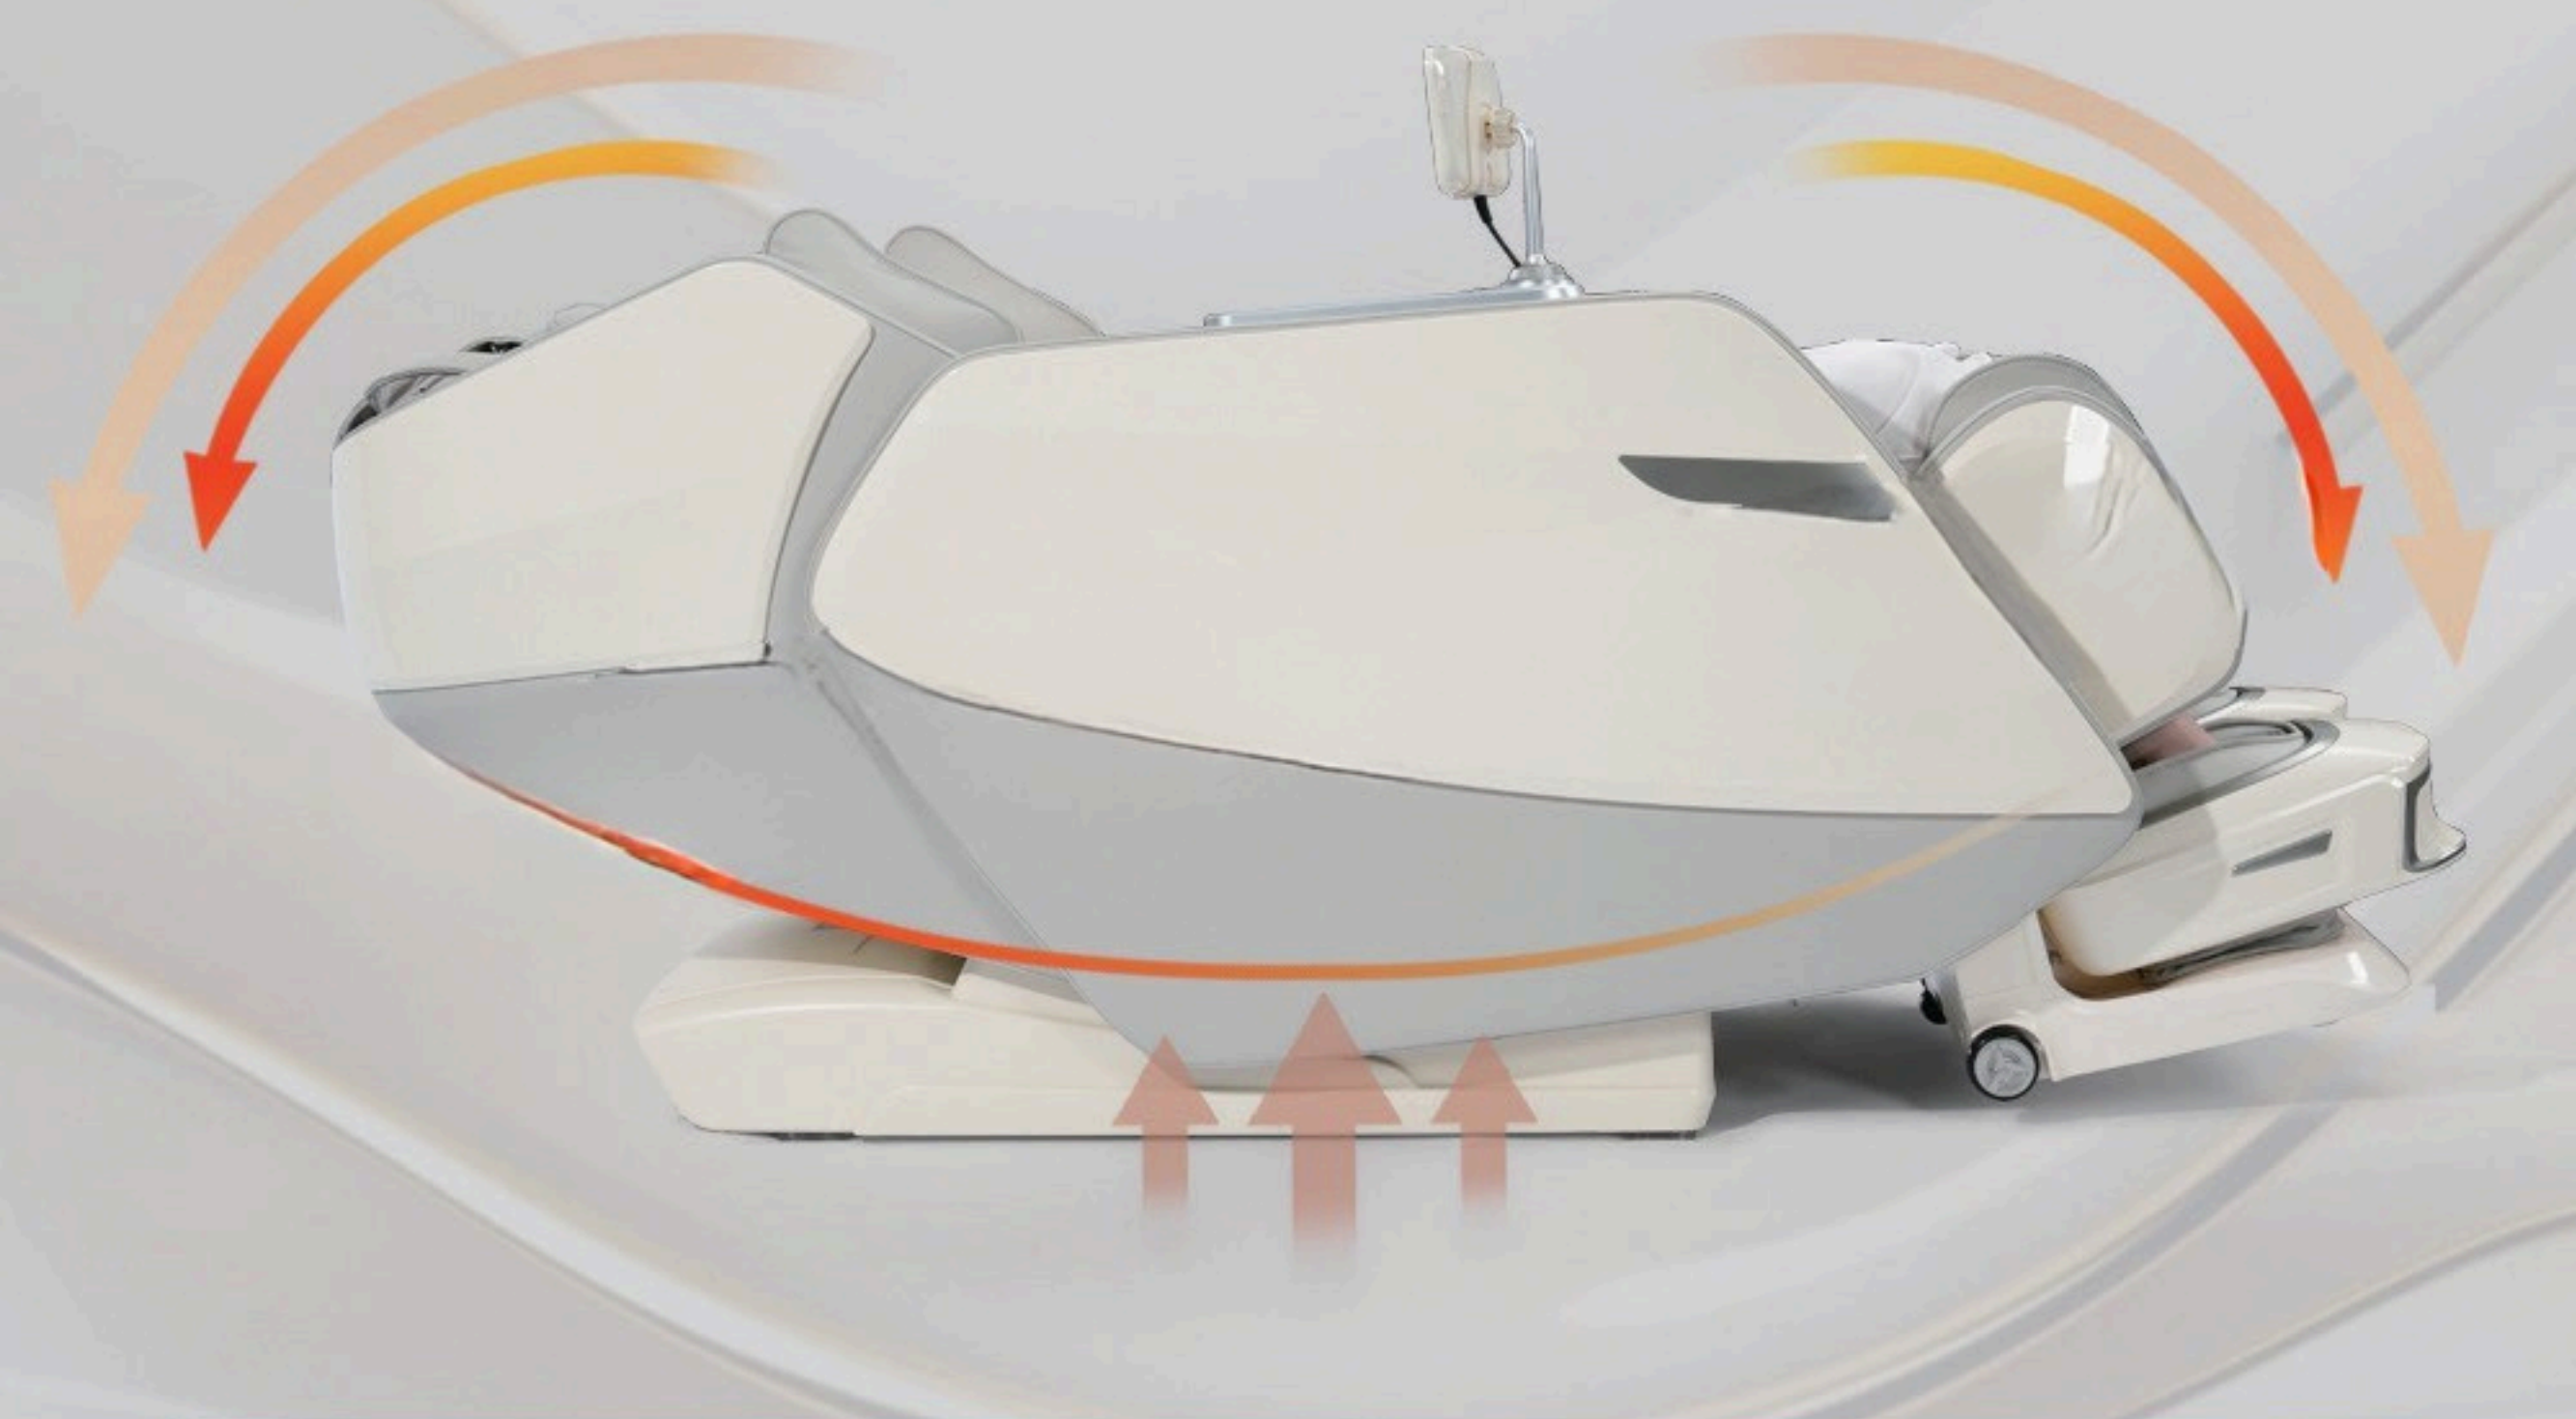

Considerate 127-pcs-Bump Massage On the Arm

Special U-shaped Airbag Wrapping Pressing Massage combining with considerate bump points massage freeing your hands and arms after long-day work.

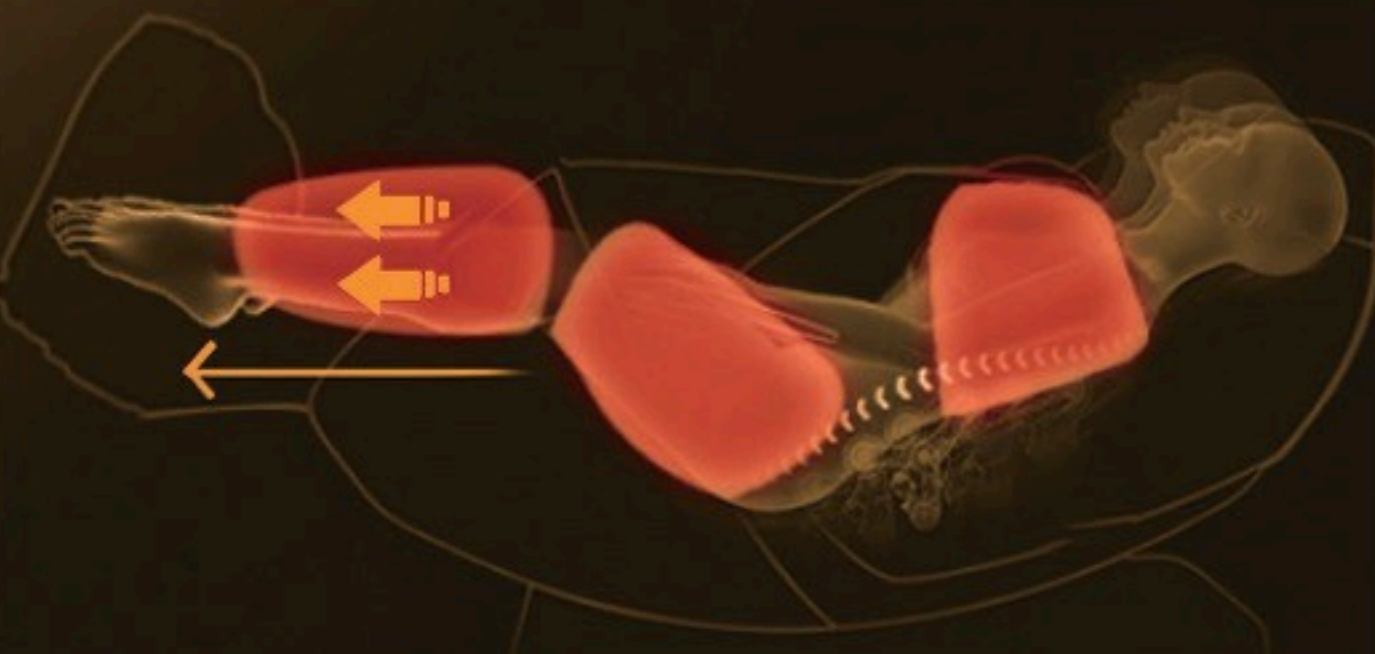

Upgraded Full Body Yoga Stretch By Innovative Robot Leg

Ultra Strong&Scientific *Full Body Stretch*— For Shoulder/Arm/Waist/Back/Leg/Foot, relieving fatigue and improving blood circulation.

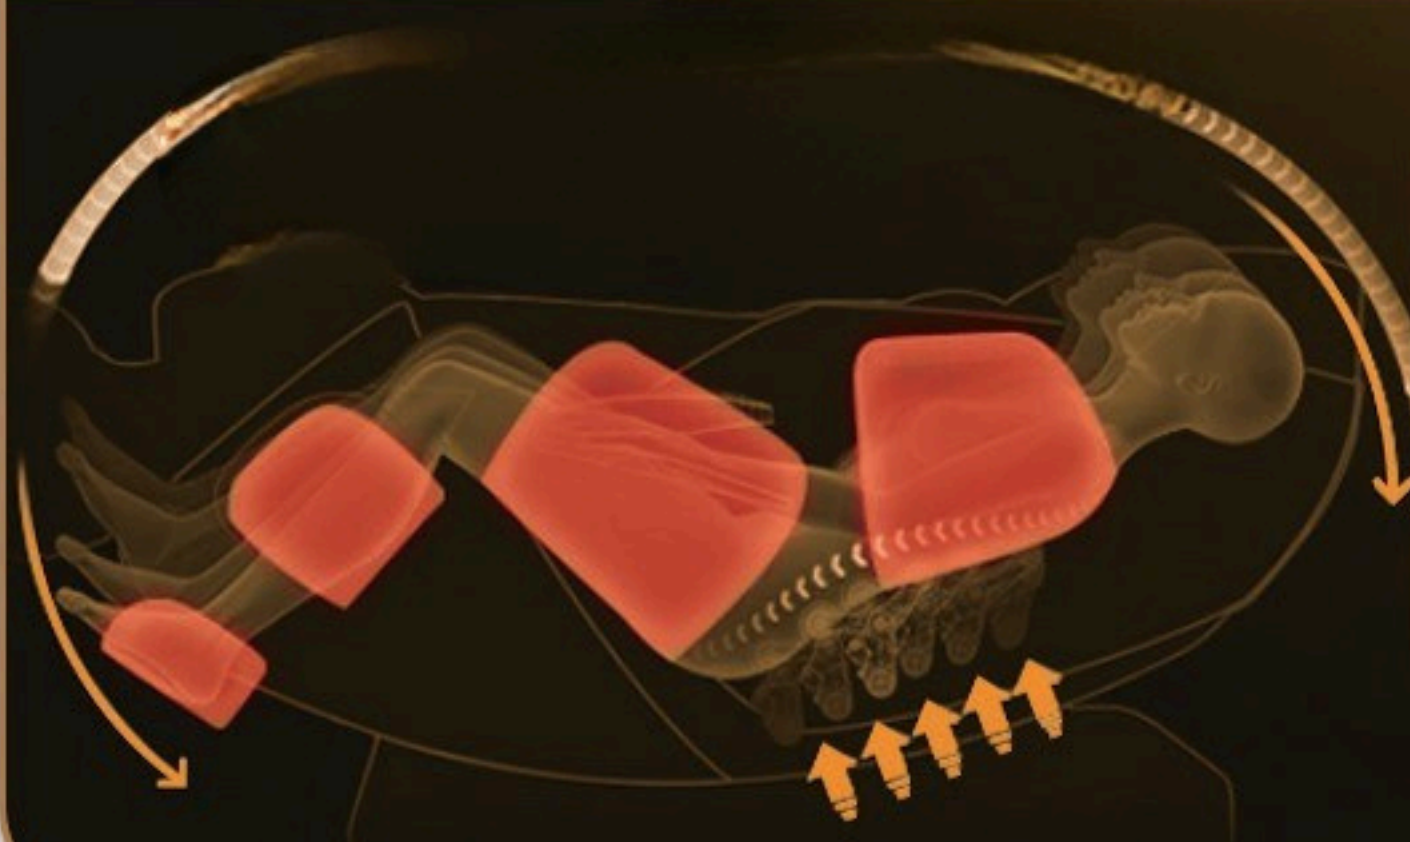

Experience a yoga-inspired stretch as shoulder and arm airbags inflate together to stretch your full body deeply and scientifically.

Japanese balanced traction stretching-The air bag tightly buckles the ankle, pulls and stretches forward in a balanced way,stretching the lumbar spine.

Thai dynamic traction stretching-While the shoulder airbags are fastened and squeeze the shoulders tightly, the leg machine is pressed down, the waist back mechanism is pushed up, so the waist and legs are deeply stretched.

Zero Gravity Relaxation

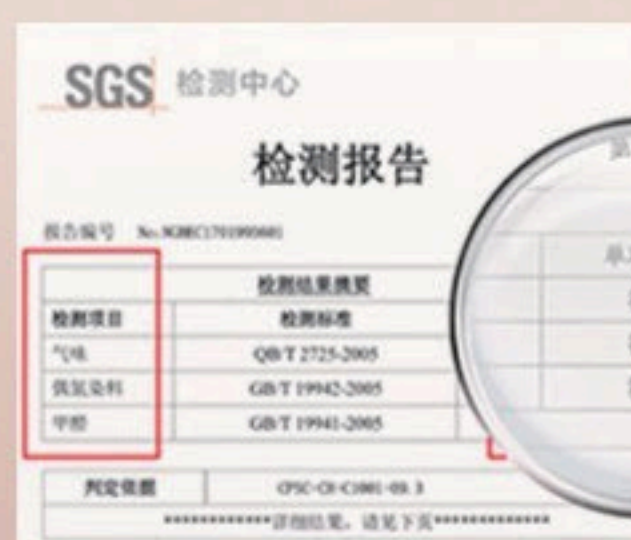

Simulate feeling of weightlessness in outer space, place the center of gravity on the hips, reduce the pressure on the spine, and let the body naturally relax at a deeper level.

- ENVIRONMENTALLY FRIENDLY
- DURABLE
- SKIN FRIENDLY

- * Soft touch, skin friendly and breathable
- * Strong wear resistance
- * 5-Year water alkali resistance (under good maintenance)
